

An eakin® seal for every situation

eakin **Cohesive**®
SLIMS
Your Leak Preventer

For stomas under 50mm for ongoing protection

For skin protection and security with confidence everyday.

REF | Depth: **2.8mm**
839005 | Width: **48mm**

eakin **Cohesive**®
small
Your Extra Protector

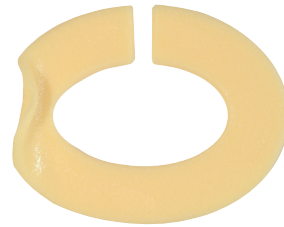

For stomas under 50mm with frequent loose output or urine

Our thickest seal that prevents leaks for those with looser output.

Also thicker to stretch around irregular shaped stomas less than 50mm.

REF | Depth: **4.2mm**
839002 | Width: **48mm**

eakin **Cohesive**®
StomaWrap
Your Time Saver

For larger or irregular shaped stomas over 50mm

Oval shape for larger or irregular shaped stomas and post-operative swelling.

Unique wrap around - easy to use for limited dexterity or visual impairment.

REF | Depth: **3.0mm**
839006 | Width: **85mm**

eakin **Cohesive**®
large
Greatest Coverage

To smooth uneven skin surfaces or for a larger skin area

To smooth out uneven pouching surfaces such as dips or creases.

It can provide an even, dry pouching surface for larger areas of peristomal skin.

REF | Depth: **2.1mm**
839001 | Width: **98mm**

NEW
eakin **freeseal**®
Your Seal For
Convex Pouches

For convex drainable pouch users

Our thinnest seal for use with convex drainable pouches for protection from leaks and freedom to live your life.

REF | Depth: **1.8mm**
839007 | Width: **48mm**

Add an eakin® seal to a regular ostomy routine to prevent leaks from occurring and give your patients the confidence to live life, everyday.
